I support the Juneau Access project and believe that it should be built in five years. Delaying it longer will just increase the costs. This project is one of the most important projects for the state to improve access for southeast, including improving ferry access by freeing up a ferry used in Lynn Canal. I support continued efforts to extend the road all the way to Skagway. The ferry system is cost prohibitive for travelers. I believe a road will provide great economic benefits for the region by connecting us to the 30,000 people in the Yukon Territory and by connecting Juneau with the rest of Alaska with a road, and for now, a short and manageable ferry link from Katzehein to Skagway/Haines.
